German-Turkish Symposium on Land Management and Urban Regeneration

Welcome to Berlin!

Dear friends and colleagues,

as the host of this event we would like to welcome you most warmly to this German-Turkish Symposium on Land Management in Berlin.

The symposium aims to contribute to the development and implementation of practical solutions for challenges of land management both in Germany and Turkey. It also seeks to develop new perspectives on urban regeneration measures, land valuation, and good governance.

The meeting continues the intensive dialogue and cooperation between surveyors and land management experts started in 2014 in Antalya and Istanbul.

Welcome to two days of German-Turkish networking, sharing of thoughts and development of project ideas in the wonderful City of Berlin.

Have a great symposium!

Prof. Dr.-Ing. Karl-Friedrich Thöne

President of DVW e.V. – German Society for Geodesy, Geoinformation and Land Management

Thursday, 23 June 2016

9:00	Registration and coffee
